# MAYUKHI PANDA

**PHONE: +44 7490 766116** **EMAIL: PANDAMAYUKHI@GMAIL.COM** **LINKEDIN:** https://www.linkedin.com/in/mayukhi-panda

Second year Computer Science student specialising in Artificial Intelligence, building on a strong foundation of technical (including programming and algorithms, data structures and more) and interpersonal skills to develop a career in technology. Proven leadership and collaborative abilities, displayed in various management roles and positions of responsibility.

## EDUCATION AND QUALIFICATIONS

**UNIVERSITY OF NOTTINGHAM, MSCI HONS COMPUTER SCIENCE WITH ARTIFICIAL INTELLIGENCE** *SEPTEMBER 2023 - JUNE 2027*

- Predicted 1st (obtained 83% overall in first year)
- **SOCIETIES & ACTIVITIES -** HackSoc, CompSoc, BandSoc (electric guitar)
- Modules include:
  - Computer Fundamentals - 98%
  - Systems & Architecture - 94%
  - Programming & Algorithms - 89%
  - Fundamentals of Artificial Intelligence - 76%

**BEXLEY GRAMMAR SCHOOL, LONDON** *SEPTEMBER 2016 - MAY 2023*

- **International Baccalaureate (IB):** Higher level Computer Science (Grade 7), Higher level Physics (Grade 6), Higher level Mathematics (Analysis & Approaches) (Grade 5), Standard level Geography (Grade 7), Standard level German (Grade 6), Standard level English Literature (Grade 5), for **total 37 points at 7, 6, 5 Higher** (A Level Equivalent A*, A, B)
- **GCSEs:** 11 GCSEs (Grades 9 - 6), including Computer Science (Grade 9), Maths (Grade 8) & English Literature (Grade 7)

## EMPLOYMENT HISTORY AND WORK EXPERIENCE

**SMART BAR - IT SUPPORT SPECIALIST, UNIVERSITY OF NOTTINGHAM (NOTTINGHAM)** *JULY 2024 - PRESENT*

- Provided support to other university students for a range of IT services, including connecting to Wi-Fi, registration (Nottingham Hub), Microsoft 365, using the university online services (Portal, Remote Desktop), printing documents, etc.

**STUDENT, SUBJECT & RAA AMBASSADOR, UNIVERSITY OF NOTTINGHAM (NOTTINGHAM)** *NOVEMBER 2023 - PRESENT*

- Showcased the university to a diverse range of clients (from primary schools to prospective university students and parents), providing detailed insight into the university and the subject/course to assist them in making informed decisions.
- RAA - Registry & Academic Affairs: worked alongside the University's student services department to assist new and returning students and staff across the arrivals period with enrolment queries or concerns.

**ENGINEERING ACADEMY, GOLDMAN SACHS (LONDON, WORK EXPERIENCE)** *OCTOBER 2024*

- Gained insights from engineers across the firm in the complexities of financial markets and quantitative finance, discovering the diverse roles available across quantitative strategists, cyber security, software engineering and systems engineering.

**LEAD COORDINATOR & COMPUTER SCIENCE TUTOR, FUNTECH (LONDON)** *JUNE - AUGUST 2024*

- Took lead management of the Wandsworth camp - including managing tutors and equipment, handling issues, completing reports, liaising with parents, venue staff and HQ and being the main point of contact for the site.
- Taught children from ages 7-16 fields of computer science at weekly summer camps, ranging from Minecraft coding (for younger students) to Python and Cyber Security (based on Kali Linux, computer networking and ethical hacking).

**TECHNOLOGY DISCOVERY PROGRAMME, EXPEDIA GROUP (LONDON, WORK EXPERIENCE)** *JUNE 2024*

- Insight into applications to software engineering roles, including technical interviews and HackerRank assessments.
- Established onto a mentoring scheme and given exposure to varying software development roles and opportunities.

**SPRING INTERNSHIP - DIGITAL BUSINESS SERVICES, HSBC (SHEFFIELD, INTERNSHIP)** *APRIL 2024*

- Shadowed a range of workers within HSBC's tech sector, including software developers, cyber security workers, project managers, scrum masters, fraud detection workers and more.
- Introduced to professional software development techniques, from Agile methodologies to global-scale Git version control.

**SPRING INTERNSHIP - TECHNOLOGY, BP (LONDON, INTERNSHIP)** *APRIL 2024*

- Future Women Leaders programme - received mentoring from both external speakers and internal, senior members of bp.
- Shadowed graduates working in bp's tech sector, including in bp pulse, gaining insight into software development within the company, cyber security practices and data analysis techniques.

**SOFTWARE DEVELOPER, WISE (LONDON, WORK EXPERIENCE)** *APRIL 2024*

- Participated in Wise Women Code (coding bootcamp for women in technology) gaining insight into the tech work sector.
- Completed work in JavaScript and SQL, took part in a Capture-the-Flag competition and also shadowed a (Java) software developer working in the company for a day.

**COMMUNITY MANAGER, TALENT SPACES (LONDON)** *MAY 2022 - JANUARY 2023*

- Played a key role in a small team of managers to develop a Mighty Networks platform for the company to build a community network, helping widen their audience and increase participation.
- Created social media content to help promote, advertise and grow the company and also helped out at in-person events - including planning, preparation, engaging with guests and packing up afterwards.

**ALGORITHMIC TRADER, BNP PARIBAS (LONDON, WORK EXPERIENCE)** *AUGUST 2022*

- Worked alongside established algorithmic trading professionals at the bank to gain insight into the fintech sector and learnt about how technology drives finance markets, whilst being able to see the systems used within the bank first-hand.
- Received live demonstrations and experience working with the environments being used for global algorithmic trading.

## POSITIONS OF RESPONSIBILITY

**COMPUTER SCIENCE MENTOR, UNIVERSITY OF NOTTINGHAM** *JUNE 2024 - PRESENT*

- Moderated students starting university on the first year of their degree in the 2024-2025 academic year and guided them through university life, including running catch-up sessions for modules and organising social events.
- Assisted lecturers and professors with admin tasks for the cohort and raising any concerns or issues to relevant staff.

**SUBJECT PREFECT (MATHS AND GERMAN), BEXLEY GRAMMAR SCHOOL** *SEPTEMBER 2021 - MAY 2023*

- Worked with younger students to help them become more confident in their work, from year 7 to GCSE level, boosting their approaches to learning and helping them improve as students.
- Mentor to students in the lower school, providing individual support with school assignments and general student life.

**GCSE & A-LEVEL TUTOR, EASYA** *MAY 2022 - MARCH 2023*

- Provided one-to-one tutoring to GCSE and A-level students for maths, English and science subjects.
- Rated highly on the platform and set by many students as their favourite tutor, commended by tutees for clarity, engagement, strong communication and patience when teaching new concepts.

## SKILLS, AWARDS, PROJECTS AND EXTRA QUALIFICATIONS

| | |
|---|---|
| **PROGRAMMING LANGUAGES** | Java, C, Python, SQL, HTML, CSS and JavaScript, ARM assembly, Haskell and HDL. |
| **TECHNICAL SKILLS** | Extensive knowledge of software development cycle, including using Agile, Jira and Git.<br>Proficient in Windows, MacOS and Linux, as well as Microsoft 365.<br>Exposed to specialised fields (e.g. cyber security, data science) in Spring internship roles and at FunTech. |
| **SOFT SKILLS** | Leadership, initiative, organisation and communication displayed in roles as lead coordinator and tutor (FunTech), student & subject ambassador (UoN), and also as a computer science mentor (BGS).<br>Collaborative worker - displayed in student representative roles (UoN), during software engineering (group project) modules, Spring internships and FunTech roles. |
| **AWARDS** | Rated 5/5 stars by all students tutored during their end of week reviews (FunTech, 2024).<br>Ranked 5th of approx. 75 teams overall in semester long group software engineering project (UoN, 2024).<br>Won one of 7 main prizes (best retro program) against over 100 other participants at HackNotts (2023).<br>Ranked top 70 (of over 200) in the UK and Ireland Programming Contest (2023), outranking top teams from other universities as a team of first-years, being then selected for further competition training.<br>Completion of the University of Oxford Somerville College's Computer Science Masterclass (2021). |
| **PROJECTS & HACKATHONS** | Group Project (UoN, 2024), IEUK: Technology (Bright Network, 2024), Hack the Burgh (University of Edinburgh, 2024), Royal Hackaway (Royal Holloway, 2024), HackNotts (University of Nottingham - WINNER, 2023), IB Internal Assessment (BGS, 2022). See LinkedIn project section for more details. |
| **EXTRA QUALIFICATIONS** | IB Extended Essay in Computer Science (Grade C), IB Theory of Knowledge (Grade C), IB CAS (Creativity, Action & Service) project passed, fully first aid trained (Tigerlily), Common Core Skills and Knowledge certified (London School of Childcare Studies, level 2) , Grade 6 Trinity classical piano. |
