EDUCATION

University of Nottingham — September 2023 - Present
Computer Science with Year in Industry BSc (Hons)

- Year 1 average of a 2:1
- 75% in Intro to Software Engineering (Java, Git)
- 72% in Computer Fundamentals, involving low-level hardware and networking (C)

EXPERIENCE

Royal Hackaway 2024 | Team Leader — January 2024

- Built a horror game clone in 24 hours using the Python Pygame library
- Acted as Team Leader, writing the UI and AI movement systems while directing my teammates to create the sound system and game over states

UoN Software Engineering Group Project — January 2024 - May 2024

- Worked as a team to extract project Requirements and Specifications from a client brief, writing User Stories to use during scrum development
- Wrote Unit Tests (JUnit) for features and wrote appropriate fixes (Java) to errors, gaining experience with Git features like branching, merging and issues

PROJECTS

Point and Click Personal Website — June - September 2024

- Blender, JavaScript, HTML, CSS
- Fully modelled and textured an interior using Blender for the user interaction
- Used HTML5 and JavaScript to make the website responsive
- Translated the game into a plaintext version for accessibility

Filmography Calculator — August 2024

- NodeJS, JavaScript, HTML, CSS
- Created a website where a user can calculate the percentage of films starring a certain actor that they have watched
- Used TMDB's API to get an actor's filmography, then generate a form via JS

EXTRACURRICULARS

UoN Computer Science Mentoring Scheme — September 2024 - Present

- Mentored a group of 15 students, providing a point of support during their first year of study

SKILLS

Languages:	C, Python, Java, JavaScript, SQLite, HTML, CSS, ARM Assembly
Libraries:	Pandas, Numpy, Sympy, Matplotlib, Pygame
Software:	VSCode, IntelliJ, Eclipse, Blender
